

CEECOACH™
by FOURCEE™

Smartly connected

The perfect companion in
equestrian sports

www.ceecoach.de

FOURCEE™ powered by peiker

The new CEECOACH™

Easy group communication for a direct connection between trainer and riders in equestrian sports.

With the new CEECOACH™ from FOURCEE™, 2-6 participants can communicate over a distance of up to 300 meters without a smartphone or mobile phone network using modern Bluetooth® technology.

- More reliable than standard radio systems
- Excellent speaking & sound quality
- Simultaneous speaking with Full-Duplex
- Modern and outstanding design
- Splash and dust-proof
- Easy and intuitive operation
- Fast Plug & Play connection
- High battery performance

The communication system that networks even without a network - handy, lightweight, sturdy and intuitive to operate.

All functions can be controlled with just three buttons. The wave-shaped design of the CEECOACH™ enables optimum operation, even when wearing gloves or without looking at the device. Individual configurations (Moderator, Participant & Private Mode) can be set-up easily and are distinguished by different colored, illuminated symbols.

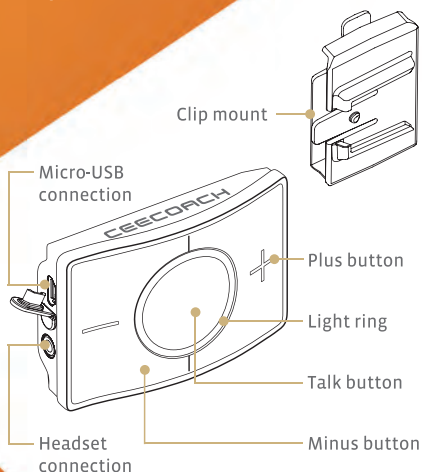

- **Moderator or Trainer Mode**
The moderator or trainer talks - up to 5 participants listen.
- **Participant Mode**
The participant and moderator or trainer can speak with each other, all other participants can only listen in.
- **Private Mode**
The moderator or trainer can place an active conversation into Private Mode. The other participants cannot listen in.

Easy
selection
between
three modes
